

LOCAL JOBS FIRST – UNLOCKING THE NSW GOVERNMENT MARKETPLACE

Do you own, operate or work for a business that employs fewer than 500 people?

If so, the goods and services you provide might be eligible for a price preference in NSW Government goods and services tenders.

The **Local Jobs First** plan seeks to enhance opportunities for small and medium enterprises to secure NSW Government contracts for the supply of goods and services.

In doing so, **Local Jobs First** encourages employment opportunities.

(The *Local Jobs First* plan does not apply to NSW Government construction contracts)

If you live in or around the following areas, we want to invite you to a special breakfast presentation where you can find out more about **Local Jobs First** and the opportunities it can offer.

Join presenters from key NSW Government agencies to get a clear picture of how the plan works and how you and your business can make the most of the opportunities it provides.
